<b>Description</b>			
<p>... and this not only when the mouse pointer/cursor does stay in the field (and even then it should not happen - I thought it was corrected long ago?!), but ALSO if you - because you know of this kind of problem - click in another field after having changed a value!</p> <p>PS: I could have made an update to bug <a href="#">#1121</a>, which is related, but I needed to change the state from HIGH to IMMEDIATE, and that is not possible in the forge system with an update ...</p>
