

Nomad - Bug #1365

Spy window places itself in some inconvenient place on the desktop

11/07/2012 10:21 AM - Hansen, Thomas

Status:	New	Start date:	11/07/2012
Priority:	High	Due date:	
Assignee:	Cecillon, Franck	% Done:	0%

Target version:		Spent time:	0.00 hour
Description			
One should be able to place the SPY window (as well as all these conditions windows) somewhere on the desktop, and Nomad should stop moving them all around at arbitrary moments to arbitrary (or rather rigid but badly chosen) places ... Leave it up to the user to tell Nomad where to place the SPY, and to define where it is convenient, please!
