

## vTAS - Feature #562

### Validation button for parameters in right upper window

18/02/2010 03:48 PM - Boehm, Martin

<b>Status:</b>	New	<b>Start date:</b>	18/02/2010
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	Raoul, Yannick	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
<p>A validation button to replace the former confirmation by return. In this way, several input parameters, like ki,QH,QK,QL or A and B can be changed at once, which should be easier for handling, especially when instruments are switched.</p> <p>The validation button should be compulsory. As long as modifications are not confirmed by the validation button, other operations, like mouse dragging, should not be permitted.</p> <p>An error message would be ideal in this case like 'Validate new input parameters'.</p>
